DETAILED ACTION

1. Applicant's amendments filed on 03/31/2008 and 06/02/2008 are acknowledged.
2. Claims 1-7, 16-17 and 22-25 are pending.
3. Claims 22-25 stand withdrawn from further consideration by the Examiner, 37 C.F.R. § 1.142(b) as being drawn to nonelected inventions.
4. Claims 1-7 and 16-17 are currently under examination as they read on a method for detecting tissue hypoxia.

Specification

5. The attempt to incorporate subject matter into this application by reference to Karl et al. or another unnamed reference is ineffective because Applicant has not attempted to specifically incorporate a reference that contains SEQ ID NO:4 and SEQ ID NO:5, as is required to incorporate those sequences into the specification by reference.
6. The amendments filed on 03/31/2008 and 06/23/2008 are objected to under 35 U.S.C. 132(a) because they introduce new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: SEQ ID NO:4 and SEQ ID NO:5.

Applicant is required to cancel the new matter in the reply to this Office Action.

Claim Rejections - 35 USC § 112

7. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

8. Claims 1-7 and 16-17 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. This is a new matter rejection.

The phrases “comprising SEQ ID NO:4” and “comprising SEQ ID NO:5” claimed in claim 1, lines 6-7 represent a departure from the specification and the claims as originally filed.

Applicant’s amendments filed on 03/31/2008 and 06/23/2008 point to the specification and claims, in particular [0103-0110], [0043] and [0087] and Tables II and III and to the Karl et al. reference. However, there is no mention of what reference is being “incorporated by reference” in order to bring in the sequences of SEQ ID NOs 4 and 5. The Karl et al. reference is unavailable for such incorporation given that Karl et al. does not disclose any sequences in the reference. The reference being incorporated by reference for the purpose of supplying the sequences must specifically disclose those sequences. The specification does not provide clear support for SEQ ID NO:4 or SEQ ID NO: 5. The instant claims now recite limitations which were not clearly disclosed in the specification and recited in the claims as originally filed.

In addition, it is noted that it is improper to refer to paragraph numbers of the application publication to make reference to the specification. Paragraph numbers were not included in the specification as filed. Therefore, Applicant must refer to page and line number of the original specification when making reference to the specification in any way.

9. No claim is allowed.

10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
